PARTNERSHIP DISCUSSION

Kivilo × Gingervale

A practical starting point for recurring Owner Care

Shelvin and Shermaine · 15 October 2026

What happens after the property purchase completes?

Owner Care can give Gingervale a reason to remain useful throughout ownership.

GINGERVALE

Owns the human relationship

Advises the owner, coordinates the service, sets the retail price and remains the client's point of contact.

KIVILO

Runs the digital relationship

Connects stakeholders around evidence, approvals, signatures and one shared property history.

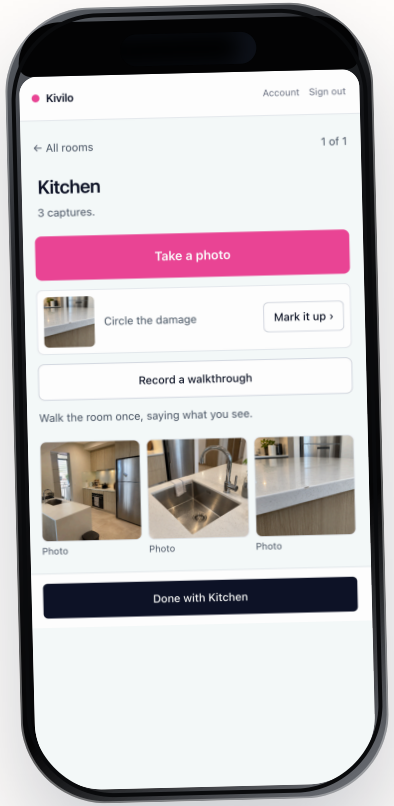

UK OPERATING PARTNER

Performs the work on site

Managing agents or inventory professionals conduct inspections and local activity.

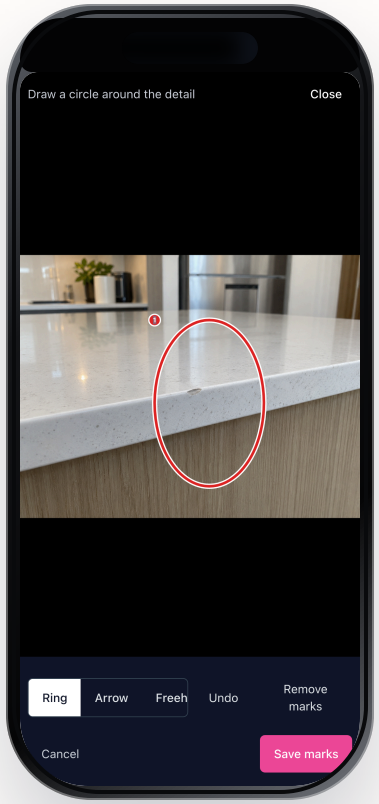

CURRENT PRODUCT · ACTUAL BUILD

Three features available today

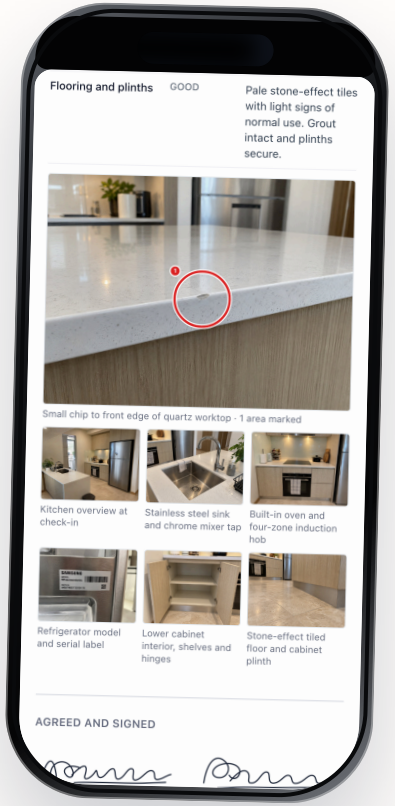

Capture the room

Photos and walkthrough evidence stay together by room.

Mark what matters

The inspector points to damage while the original stays untouched.

Sign and compare

A dated record carries the evidence into check-out.

Captured from the current build

LIVE DEMO · SWITCH TO THE PHONE

One active property. One completed record.

Four minutes to show how Kivilo moves from work in progress to a signed property history.

01 · WORK IN PROGRESS

42 Cairnhill Rise

Three rooms reviewed. The Bathroom is the one unfinished room.

02 · EVIDENCE BECOMES INVENTORY

Show the real report

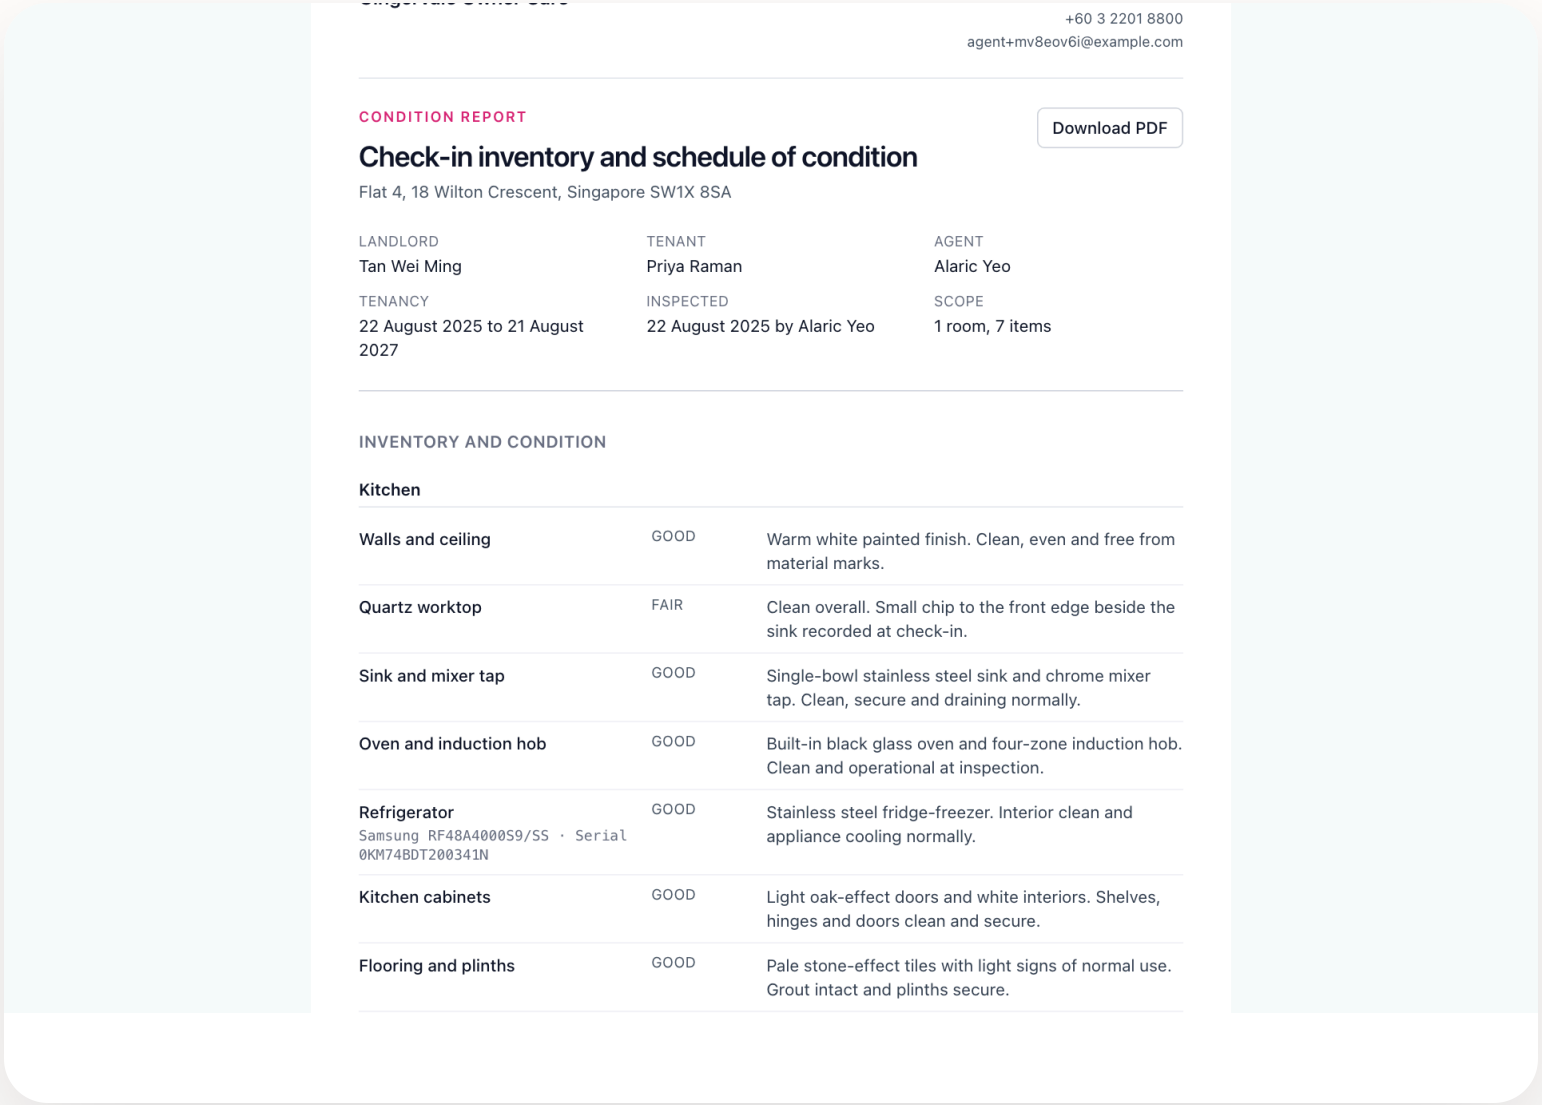

Scroll its written inventory, evidence photos and marked defect.

03 · THE FINISHED RECORD

18 Ardmore Park

Show both signatures, the condition report and resolved repair timeline.

CONDITION REPORT

Download PDF

Check-in inventory and schedule of condition

Flat 4, 18 Wilton Crescent, Singapore SW1X 8SA

LANDLORD	TENANT	AGENT
Tan Wei Ming	Priya Raman	Alaric Yeo
TENANCY	**INSPECTED**	**SCOPE**
22 August 2025 to 21 August 2027	22 August 2025 by Alaric Yeo	1 room, 7 items

INVENTORY AND CONDITION

Kitchen		
Walls and ceiling	GOOD	Warm white painted finish. Clean, even and free from material marks.
Quartz worktop	FAIR	Clean overall. Small chip to the front edge beside the sink recorded at check-in.
Sink and mixer tap	GOOD	Single-bowl stainless steel sink and chrome mixer tap. Clean, secure and draining normally.
Oven and induction hob	GOOD	Built-in black glass oven and four-zone induction hob. Clean and operational at inspection.
Refrigerator Samsung RF48A4000S9/SS · Serial 0KM74BDT200341N	GOOD	Stainless steel fridge-freezer. Interior clean and appliance cooling normally.
Kitchen cabinets	GOOD	Light oak-effect doors and white interiors. Shelves, hinges and doors clean and secure.
Flooring and plinths	GOOD	Pale stone-effect tiles with light signs of normal use. Grout intact and plinths secure.

Actual report generated by the current build

A properly filled condition report

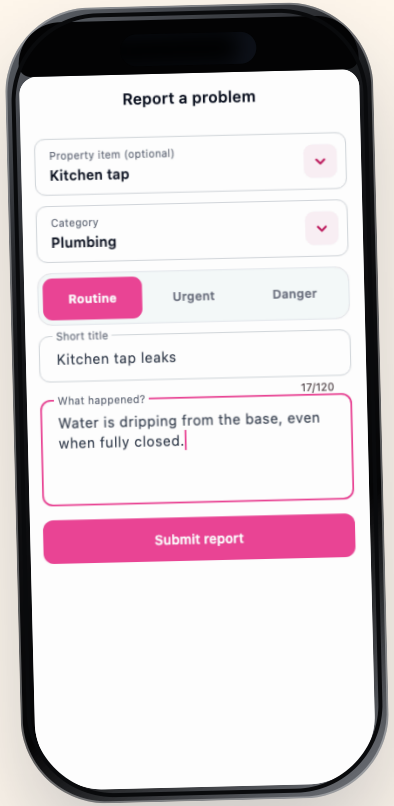

The demo kitchen includes seven inventory lines, seven matched evidence photos, an appliance identifier, a marked defect and both signatures.

This is the working module today. UK wording and operating details form part of the pilot.

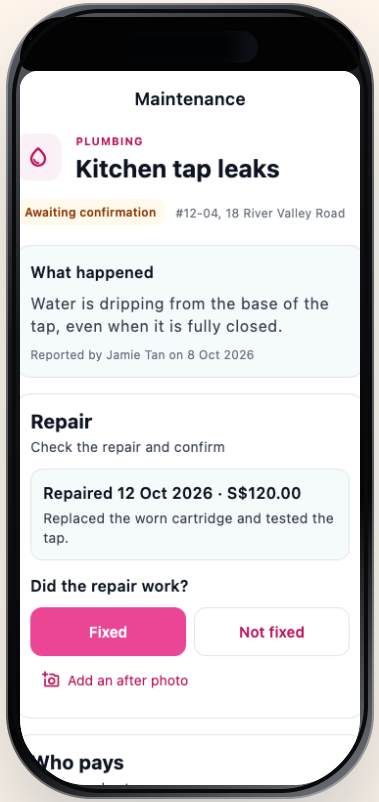

CURRENT PRODUCT · TENANT REPAIR FLOW

Tenants log repairs from report to resolution

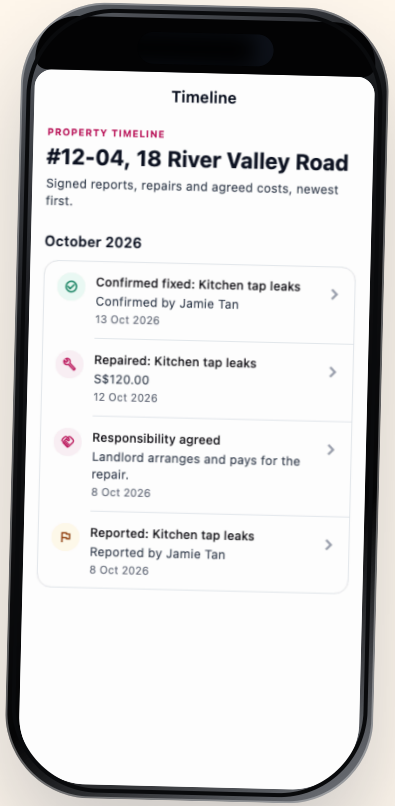

Report the problem

The tenant identifies the item, urgency and what happened.

Confirm the outcome

The repair, cost and tenant's Fixed or Not fixed verdict stay together.

Keep the history

Owners see a dated trail of reports, agreed responsibility and repairs.

Rendered from the current native app UI

PRODUCT ROADMAP · FIVE CONNECTED MODULES

Five modules. We have started at M4.

Condition and Care proves the shared property record. The same record expands into every transaction and tenancy workflow.

M1 Deal wizard

Pre-filled agreements, tenancy documents and invoices.

PLANNED

M2 Signing chains

Sequenced signatures, reminders and a complete audit trail.

PLANNED

M3 AML & CDD

Identity checks and screening from stakeholder data already held.

PLANNED

YOU ARE SEEING THIS TODAY

M4 Condition & care

Check-in, check-out, signed evidence and repair history.

WORKING PRIVATE BETA

M5 Portals & intelligence

Role-specific views, renewals and the property's history.

REPAIR WORKFLOW LIVE · BROADER MODULE PLANNED

The record compounds

Check-out feeds the next deal. Existing stakeholders and the property history make every later module easier to start.

M4 is live now · M5 has begun · M1 to M3 are planned

PROPOSED GINGERVALE PARTNER MODEL

Start free. Then pay for software as the portfolio grows.

Gingervale earns from Owner Care. Kivilo charges a predictable software fee.

01 · FOUNDING PILOT

Prove the service

No fee

Eight weeks, guided setup and up to 10 active properties.

No commitment to continue

02 · AFTER THE PILOT

Launch Owner Care

S$39 / user

Each month, including the first 25 active properties.

Discounted founding rate

03 · AS IT GROWS

Add properties

+S$2 / property

Only for active properties 26 through 100. Agree a lower volume tier above 100.

Usage grows only after the allowance

Gingervale keeps the owner fee

Gingervale sets the retail price and leads the human relationship. Kivilo provides the shared stakeholder record and digital convenience. There is no percentage revenue share.

Reference only: planned public Kivilo Pro price is S$49 per user each month · Proposed partner terms, subject to pilot agreement

Illustration at 100 active properties

RM9,900

monthly Owner Care revenue at RM99 per property

S$189

Kivilo software: S$39 base + 75 overages

100%

client revenue kept by Gingervale

Gingervale keeps the service upside as the portfolio grows

Kivilo participates through **predictable usage pricing**, while Gingervale retains the Owner Care revenue and controls the human service.

Illustration before fieldwork, staffing, tax and other operating costs. RM99 is an example retail price set by Gingervale. The volume tier above 100 remains to be agreed.

THE DECISION FOR TODAY

A small test with a clear decision at the end

10 properties

across an eight-week, no-fee pilot

We learn how Owner Care works in practice before either side makes a longer commitment.

FIRST

Define the workflow

Choose one owner journey, confirm who does what and agree what a successful pilot must prove.

THEN

Run, learn and decide

Test up to 10 property records, collect feedback and continue on the partner terms only if it is useful.
